

Introduction

This edition of our Magazine INTERCULTURAL COMMUNICATION AND MANAGEMENT presents three country cases:

- Italy
- Switzerland
- and Republic of Moldova

The focal point is how each country deals with its intercultural situation (s). From the scientific point of view, the dissertation paper on the Republic of Moldova is the most elaborated one. However, I wanted to see the three papers published, given the fact that each one is able to stimulate our awareness of intercultural behaviour and efforts of European Countries.
